SALE NUMBER 51
CLOSING DATE
February 17, 1983

TERMS OF SALE
(Please Read Carefully)

1. BIDS BY MAIL, PHONE OR TELEX will be accepted until the closing date. Late phone bids must be confirmed by mail. All lots are sold to the highest bidder. Bids are treated as LIMITS. Bids are reduced where competition permits to within 5% of the second highest bid. In the case of tie bids, the first received is normally given preference. No "buy" or unlimited bids are accepted. Bids are accepted by lot number only. No lots are broken up. Bids are only executed in even dollar amounts.
2. This sale is NOT an approval sale. All material offered is guaranteed genuine and as described. Cataloging errors will be cheerfully and promptly corrected. FLOOR BUYERS MAY NOT RETURN ANY LOTS. All claims for adjustment by other buyers must be made within five days of receipt but in no case more than 45 days after a sale. After that time, we will have made settlement with our consignors. Lots are not shipped until paid for. Therefore, late payments may negate a return privilege.
3. Successful bidders are required to pay the full invoice amount before lots are delivered unless an open account has been established. An open account is a privilege and not a right. First rate credit references or a 25% deposit are necessary to assure entry of your bids. Any portion of such a deposit not used will be promptly refunded after the sale.
4. TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID FOR PROMPTLY IN U.S. FUNDS. Payment should be made immediately upon receipt of the invoice. 18% annual interest is charged on accounts 30 days past due beginning from the sale date. Payments from foreign accounts must be made in U.S. Dollars by International Check drawn on a U.S. bank or by wire transfer to the account of Joseph Lepczyk, c/o East Lansing State Bank, Account Number 04023353-01. As a convenience, invoices may be charged to VISA or MasterCard accounts provided the purchaser agrees to pay an additional 2½% handling charge. Please supply account number and expiration date.
5. POSTAGE, INSURANCE and/or handling fees are added to all shipments. All lots to be mailed to addresses not in the United States of America or its Territories, are charged an additional 1% insurance fee unless insurance is provided by the bidder. Overseas bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made. We normally use registered air mail.
6. Sales Tax is added to lots delivered in Michigan unless a valid resale number is presented.
7. TITLE to all lots remains with the cataloger until payment in full is received. The auctioneer reserves the right to accept or reject any or all bids at his discretion.

Tips and Strategies for Mail Bidders

Our reputation and typical high results at auction is mainly due to mail bidders who have become regular clients. We are always pleased to work closely with bidders in following their special instructions. Where possible, lots are purchased for mail bidders below their maximum bids. This occurs on about 20% of all lots. The competition is intense for desirable lots with many bids clustering near the same level. Estimates appearing in our catalogs are guides only. Popular and high grade material will frequently sell above estimates. Analyzing the results of our past sales, we have found that approximately 10% of the lots sell at top wholesale, 80% sell around full retail and the remaining 10% exceeds all our expectations.

The strategies and bidder techniques mentioned here are useful guidelines in bidding in any auction.

1. Always read the Terms of Sale and evaluate the auction houses. Not only are these different between auction houses but the terms may change from sale to sale for the same auction firm. Be aware of buyer's fees, Value Added Tax, handling and shipping fees along with the extent of guarantee, return privileges and late payment or storage charges.
2. As tie bids are received for many lots, one strategy is to bid early as preference is given to the earliest bid received. Preference on tie bids is also given to bidders who pay their accounts promptly and who do not make capricious returns.
3. Please sign your bid sheet and include your phone number. An unsigned bid sheet, may not have bids executed. If we feel a significant bidder error has been made, we will attempt to verify a bid by phone.
4. Bidding at a low level on many lots is a poor strategy due to the lack of success and also due to the time involved in preparing and processing such a bid sheet. Submitting numerous low bids is counter productive for everyone and does not establish your reputation as a credible bidder.
5. List your bids in numerical order instead of skipping around. This helps prevent bidder errors and is much easier for a clerk to enter your bids into the bid book. Always recheck your bid sheet.
6. Do not be afraid to bid over estimate if you feel a lot is worth it. Most tie bids occur on lower priced items. Bid the absolute maximum that any lot of interest is worth to you. Many lots are reduced significantly. Once a sale has been called, we can not increase your bid. We will always try to purchase the lot for you as inexpensively as possible.
7. If you want a percentage increase on any lot or lots, indicate this on your bid sheet. We much prefer that you do this on a lot by lot basis on a few lots rather than just checking an overall percentage increase box.
8. If you have a specific total limit on the amount of your purchase, we can generally follow your instructions even if you bid up to four times your total limit. We can enter your bids in the bid book or have one of our assistants represent you from the floor. This way you can submit more bids, increasing your chances of success without over extending your budget. This gives mail bidders one of the traditional advantages of floor bidders and also of participating successfully within their means.
9. If you are interested in purchasing just one lot of a type where several are offered, indicate special instructions to this effect. Just bracket those bids and mark "one only" or "alternate."
10. You may request photos or permission to view lots by mail. While there is a photo or shipping fee involved, this may answer specific questions you have about varieties or condition. The viewing privilege by mail is extended only to known clients in North America.
11. Become a subscriber. This will insure you receive catalogs by timely first class mail. Additionally, prices realized are sent to subscribers automatically. The PR's can be a useful guide to future bidding or purchases. It can also indicate areas where prices are declining or increasing and helps you evaluate your similar pieces in your own collection.
12. If you have any questions about lot descriptions, Terms of Sale, bidding procedures or estimates, call us at (517) 332-8581 between normal business hours 9 a.m. to 5 p.m. EST, Monday through Friday.

HOT AIR PAGE

I am calling these few paragraphs into my office while vacationing in Florida with my family and then attending the FUN Convention for a day or so. While the fishing and shelling was interesting, I found a few hundred reasons more to "Say Yes to Michigan!"

I am pleased that my staff was able to go ahead and put the final touches into this catalog without my help. They actually claimed it was easier for them without my presence.

Originally, we were not planning on doing a February sale. However, a few major consignors wanted to have their material offered as soon as possible. We will not have a March auction unless a large German collection I am looking at this week is actually consigned.

Our April sale is shaping up very well. This will be in conjunction with the Michigan State Numismatic Society's Spring Convention. The last Spring Convention had an official attendance of over 10,000 people. We could use more U.S. material for this auction as it will have a strong appeal to the floor bidders who will be represented by major dealers and collectors along with the general public. Extra copies of this sale catalog will be passed out at the C.I.C.F. Convention and the Central States Convention.

Our recent November sale was well received. We easily could have sold \$1,000,000 or more worth of U.S. coins at good prices if they had been offered in our catalog. The activity at the auction and the convention was intense and much more satisfactory for the dealers than the subsequent New York International Convention. We have this auction again in November 1983. I highly suggest consignors make their plans now for this sale. By the way, one area of world coins that truly has been doing excellent at auction is Italian. Medieval and Ancient coins have been doing so-so unless they are Very Fine or better. We probably will not auction the ancient collections in our hands until our November sale which will have a large attendance of ancient collectors.

I have appreciated the inquiries regarding the auctioning of specialized collections. I am most interested in these types of collections and can either include them in one of our regularly scheduled sales or, if the value warrants it, as an independent sale in virtually any part of North America.

The Terms of Sale have been slightly changed for this sale. We are currently investigating the feasibility and legal implications of a "buyer's fee" which would be waived for prompt payment. Auction houses can not afford to act as bankers for collectors and dealers since we must settle promptly with our consignors. The profit margin of reputable auction houses is not all that great after expenses. Our next sale may have some radical changes in the Terms of Sale.

I am pleased to announce that William Nawrocki of Chicago will be acting as one of our agents to discuss and pick up consignments. Bill is an outstanding, free-lance coin photographer besides being a general numismatist.

In closing, I would like to unload some of my current pet peeves. One is directed to the misleading impression promoted to befuddle consignors by some auction houses that a lavish catalog, color plates and a buyer's fee will enhance and truly promote the final sale results of a consignment. These types of productions represent successful "fishing expeditions" for consignments rather than for top prices. Much of the material going through our sales has been purchased out of other auctions. The bottom line is that our consignors are making a profit even on their recent purchases. The other irritation is a result of the photography in certain auction catalogs. Due to the "line drawing" effect, a mail bidder can not tell which of three or more grades an illustrated lot may be. Additionally, this type of illustration is so lacking in surface detail that it is almost worthless in establishing a pedigree.
